Venue

Icebergs Dining Room and Bar is one of Sydney's, if not Australia's, most beautiful restaurant sites, an icon standing sentinel over the power of the Pacific Ocean with a palette inspired by cool sea greens and ocean blues.

Icebergs Dining Room and Bar is as intimate as it is impressive. Icebergs is not only home to the iconic restaurant, but to Australia's most renowned ocean pool and ocean swimming club – a testament to Australian culture.

Every day diners from all over the globe, pass through the doors of the acclaimed restaurant for this unique combination, the sweeping views of the Pacific Ocean and the world-class dining experience.

Icebergs Dining Room and Bar was designed in 2001 by Roman architects Lazzarini Pickering to celebrate that power. As with all great design, it has stood the test of time and looks as iconic today as it did when first completed.

“I have always described the Icebergs design as my love letter to Sydney,” says Carl Pickering.

A destination for all seasons, Icebergs Dining Room and Bar is the ideal place to celebrate any occasion.

Food

Food

Awarded two chefs hats in the SMH Good Food Guide for the past 20 years, our menus are designed to celebrate the best of Italian cuisine with Australia's finest produce, including sustainable meat, seafood & artisan produce along with a hint of native Australia.

Incorporating native Australian ingredients into the menu showcases the diversity and richness of Australia's culinary offerings.

Canape Menu

Our canape menu offers a selection of light and more substantial options. We recommend 6 selections per person for a light offering or 8 to 10 selections per person for a more substantial offering. This flexibility allows guests to tailor their selections based on their individual preferences and the needs of the event.

The canape menu is well-designed to accommodate a variety of events and dietary preferences and provides a good balance between light and more substantial options.

Feasting Menus

We have a selection of feasting menus for a sit-down event. A feasting menu is our preferred style of eating for groups – a meal that is about sharing conversation, celebration and conviviality. In this style of service, the entrées are placed in the centre of the table and shared, while the mains are silver served by our team of waiters and plated individually.

Feasting menus are an excellent way to introduce guests to a variety of dishes, while also providing a sense of abundance and indulgence. By offering a selection of menus, the restaurant can cater to different tastes and preferences and ensure that each event is tailored to the needs and desires of the group.

Custom Menus

We offer the opportunity to build bespoke menus for exclusive restaurant events only.

This approach allows guests to create a truly personalised dining experience that's tailored to their unique needs and preferences.

By collaborating with the restaurant's Head Chef and culinary team, guests can work together to design a menu that reflects their individual tastes and desires, incorporating specific ingredients or dishes that they may be particularly interested in. This level of customisation can make the dining experience feel more special and memorable for guests and can also help to create a unique atmosphere and sense of occasion.

Drinks

Drinks

The Icebergs drink list is all about seaside drinking with twists on the classics, but it also features the iconic Icebergs numbers that we all know and love, and that have been with us from the beginning.

Our drinks list is well-designed to provide guests with a range of options that reflect our restaurant's location, history, and personality. By offering both twists on the classics and signature numbers, the menu can cater to a variety of tastes and preferences and provide a unique and memorable experience.

Wines

Icebergs sits on a very special cliff face home for thousands of years to the Gadigal and Bidjagal people. Whilst working on their lands it feels important to seek out wines and people that have a sense of place.

Great wines are capsules of the climate, soils and the environment. With climates changing and wine regions evolving at a rapid rate how the growers and winemakers respond is even more prevalent. The single biggest evolution of the wine program is the integration of the cellar itself and wine fridges into the dining room giving the team the ability to serve all wine chilled red, rose, amber and whites all at ideal service temperature something sommelier James Hird, Maurice and the drinks team are passionate about. Wines served chilled perfect seaside drinking.
